

# iNaturalist

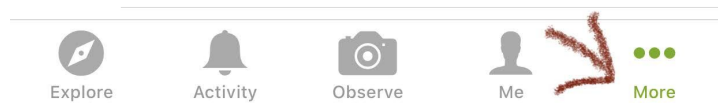

## How to add a county “project” in iNaturalist

### MOBILE (iphone):

Add the iNaturalist App via [Apple App store](#)

Create login or sign in

Click “More” (bottom right)

Select “Projects”

Pull down screen to search: **ForestWatch** (no spaces)

Select “Join” for the county or counties you frequent

Add as many ForestWatch counties as you’d like!

That’s it! Start observing when you are in National Forest lands

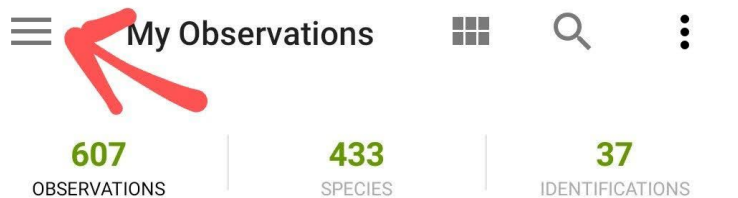

Your future iNaturalist observations will automatically be added to the project!

### MOBILE (Android):

Add the iNaturalist App via [Google Play](#)

Create login or sign in

Click “More” (top left)

Select “Projects”

Press the search symbol and enter: **ForestWatch** (no spaces)

Select “Join” the county or counties you frequent

### DESKTOP:

[Sign in or create an account](#)

Select “Community” on the top navigation bar

Select “Projects”

search: **ForestWatch** (no spaces)

Select “Join” for the county or counties you frequent

Add as many ForestWatch Counties as you’d like!

That’s it! Start Observing when you are in National Forest lands

Your future iNatrualist observations will automatically be added to the project!
